

Rhythm of the City Notes

Cityscape

- A kind of landscape that features man-made structures & the urban environment
 - Features sky, buildings, & streets

Space

- An element of art referring to the area in, around, or within, objects
 - Can refer to physical space or positive & negative space

Rhythm

- A principle of art that refers to the careful placement of repeated elements to create a visual tempo or beat within a work of art

Perspective

- Point of view; the view from which the viewer sees, shows a sense of depth
 - High (Birds Eye View)
 - Looks down from above
 - Ground shows
 - High horizon line
 - Low (Worms Eye View)
 - Looks up from below
 - Sky shows
 - Low horizon line

Orthogonal Lines

- The diagonal lines that recede into the vanishing point

One Point Perspective

- A 3D drawing method where all of the orthogonal lines recede into a single vanishing point along the horizon line

Two Point Perspective

- A 3D drawing method where all of the orthogonal lines recede into one of two vanishing points along the horizon line
